

is subject to tolling. The FCC Form 307, Application for Extension of Broadcast Construction Permit or to Replace Expired Construction Permit, will be abolished.

Specifically, when a permit is subject to tolling because construction is encumbered due to an act of God, or when a construction permit is the subject of administrative or judicial review, Section 73.3598 requires a permittee to notify the Commission as promptly as possible and, in any event, within 30 days, and to provide supporting documentation. Tolling resulting from an act of God will normally cease six months from the date of the notification. A permittee must also notify the Commission promptly when a relevant administrative or judicial review is resolved. Any construction permit for which construction has not been completed shall be automatically forfeited upon expiration of the construction permit.

The data are used by FCC staff to ensure that legitimate obstacles are preventing permittees from the construction of broadcast facilities.
